Listing of Claims:

Claims 1-20. (*Canceled*)

Claim 21. (*New*) A method for facilitating recirculation of goods, said method comprising:

   providing a recirculation website;

   receiving information regarding a good from a donor, the good being chattel property or other physical item;

   posting information regarding the good on the recirculation website;

   receiving a request from a recipient for the posted good; and

   facilitating transfer of the good from the donor to the recipient without any remuneration occurring between the donor and the recipient.

Claim 22. (*New*) The method according to claim 21, further comprising classifying the recipient within a predefined class and the donor within a predefined class.

Claim 23. (*New*) The method according to claim 22, further comprising determining whether the predefined class of the recipient is eligible to request the posted good.

Claim 24. (*New*) The method according to claim 21, further comprising registering recipients on the website and classifying the registered recipients and donors within predefined classes.

Claim 25. (*New*) The method according to claim 24, further comprising identifying the posted good to recipients of predefined classes previously ineligible to request the posted good after a predetermined period of time in which the posted good remains available for retrieval by a recipient member of a predefined class eligible to request the posted good.

Claim 26. (*New*) The method according to claim 21, further comprising classifying recipients and donors in a predefined class for charity/non-profit organizations.

Claim 27. (*New*) The method according to claim 21, further comprising classifying recipients and donors in a predefined class for business/individual entities.

Claim 28. (*New*) The method according to claim 21, further comprising classifying recipients and donors in a predefined class for any entity.

Claim 29. (*New*) The method according to claim 21, further comprising soliciting the donor to transfer the posted good to the recipient.

3

1   Claim 30. (*New*) The method according to claim 21, further comprising providing the

2 website with a homepage with links including BUSINESS, CHARITY, EVERYONE, EVERYONE

3 (CATEGORIES), BROWSE TO GET, FEATURED ITEMS, and URGENT REQUESTS.

1   Claim 31. (*New*) A system facilitating recirculation of goods, said system comprising:

2   a recirculation web server with a processor;

3   a recirculation website associated with the recirculation web server, the recirculation

4 website being a global repository of goods posted for recirculation, and for facilitating

5 recirculation of goods between donors and recipients without any economic remuneration

6 occurring between donors and recipients;

7   recirculation software carried on a computer readable medium;

8   wherein said recirculation software, when executed by the processor, causes the software

9 to carry out steps comprising:

10   receiving information regarding a good from a donor, the good being chattel property or

11 other physical item;

12   posting information regarding the good on the recirculation website;

13   receiving a request from a recipient for the posted good; and

14   facilitating transfer of the good from the donor to the recipient without any remuneration

15 occurring between the donor and the recipient.

Claim 32. (*New*) The system according to claim 31, wherein said recirculation software further causes the processor to carry out steps comprising classifying the recipient within a predefined class and the donor within a predefined class.

Claim 33. (*New*) The system according to claim 32, wherein said recirculation software further causes the processor to carry out steps comprising determining whether the predefined class of the recipient is eligible to request the posted good.

Claim 34. (*New*) The system according to claim 31, wherein said recirculation software further causes the processor to carry out steps comprising registering recipients and donors on the website and classifying the registered recipients and registered donors within predefined classes.

Claim 35. (*New*) The system according to claim 34, wherein said recirculation software further causes the processor to carry out steps comprising identifying the posted good to recipient donors of predefined classes previously ineligible to request the posted good after a predetermined period of time in which the posted good remains available for retrieval by a recipient member of a predefined class eligible to request the posted good.

Claim 36. (*New*) The system according to claim 31, wherein said recirculation software further causes the processor to carry out steps comprising classifying recipients and donors in a predefined class for charity/non-profit organizations.

Claim 37. (*New*) The system according to claim 31, wherein said recirculation software further causes the processor to carry out steps comprising classifying recipients and donors in a predefined class for business/individual entities.

Claim 38. (*New*) The system according to claim 31, wherein said recirculation software further causes the processor to carry out steps comprising classifying recipients and donors in a predefined class for any entity.

Claim 39. (*New*) The system according to claim 31, wherein said recirculation software further causes the processor to carry out steps comprising soliciting the donor to transfer the posted good to the recipient.

Claim 40. (*New*) The system according to claim 31, wherein said recirculation software further causes the processor to carry out steps comprising providing the website with a homepage with links including BUSINESS, CHARITY, EVERYONE, EVERYONE (CATEGORIES), BROWSE TO GET, FEATURED ITEMS, and URGENT REQUESTS.
